

FPZV USA Cross Registration

Cross Registration is \$75; DNA Testing is \$50 ; Micro-chip \$ 40

Purpose

This registry is to recognize and celebrate the value and contribution of the Friesian Cross in North America. The FPZV USA Cross Registry will promote and educate all horse enthusiasts on the crosses unique characteristics and benefits of ownership. This endeavor will lead to the increased value of the FPZV USA Crosses. In addition, through the incorporation of common sense rules and verifiable standards, we will protect and serve our members.

Foundation Standards

The pedigree of the cross must be at least 50% Friesian. The Friesian lineage of the cross must be verified through DNA, which will be kept on file by FPZV USA at UC Davis. Friesian crosses are evaluated solely on their merits not on the accomplishments of their sire or dam.

DNA will be required to register any existing crossbred.

Membership

Membership is an annual membership.

Registration of the Crossbred Horse

1. Fill out the Registration application and the pedigree information sending to the office with all fees. You must include copies of Dam and Sires registration papers and any DNA information you have for both Sire and Dam.
2. Upon acceptance you will receive a microchip and markings form to be completed by your veterinarian and returned to this office.

All FPZV USA Horses are eligible to participate in the Inspection Tours.
